

## Kebne Signage

KAUPPI & KAUPPI

Kebne outdoor gym includes signage with graphics and easy-to-understand icons depicting the most common strength training exercises. The graphics are inspired by the abstract mountain icon created for Kebne's logo. Its shape and profile are echoed in the shapes of the fitness units themselves, which add a sculptural element to the open landscape.

The outdoor gym is complemented by an overall sign depicting the functions and potentials of each individual fitness unit. Each unit has a corresponding sign with easy-to-understand icons that illustrate the exercises it is designed for. When ordering a complete outdoor gym (all five fitness units), the signs will display a scannable QR Code linked to Kebne's training videos on [www.summitcalisthenics.com](http://www.summitcalisthenics.com). The signage includes safety certification information so that the entire outdoor gym and individual fitness units can be inspected and approved on site.

BIM models are available for this fitness unit.
