

FACTS

LOOP LINE # 140

LOOP Line is made to function independently as well as in combination. It combines with LOOP Arc to form a triangle, curving snake forms or any number of other customised solutions. Combined with LOOP Corner it forms rectangles to use for ball courts, elevated beds or sand boxes, where seating is the added bonus.

Design: AART Designers

TECHNICAL

Material

Rotation moulded polyethylene, 8 mm thick, dyed. Moulded in one piece. UV-resistant, stands up to weather, wear and tear. The material is suitable for granulation and recycling.

Surfaces and friction

The products have a textured/granulated surface due to abrasive blasting of the mold. This process enhances the friction and makes the surface less slippery.

Authentication

TÜV approved as playground equipment acc. EN1176.

Dimensions

L2000 x H400mm.

Volume: 240L

Assembling & fixation

LOOP Line combines with #137 LOOP Arc to form curving snake forms and triangles. Combined with LOOP Corner #171 it forms rectangles. The modules are joined with brackets (B4) at either end. Please note that the shape of Loop Line does not permit it to stand alone unfastened. It must be attached to the ground or to a LOOP Arc or LOOP Corner at either end. Brackets to be ordered separately.

Recycled and ecolabelled*

Recycled version is made from 100% recycled polyethylene plastic, of which 85% comes from internal waste and production surplus, while 15% comes from polyethylene bags.

Recycled version is ecolabelled, promoting circular economy and fulfils UN's sustainable development goal no.12 – Responsible consumption and production.

Recycled version is available in anthracite variant, yet colour can vary from order to order.

Maintenance

This product withstands most cleaning agents and chemicals and can be cleaned using a high-pressure cleaner. The colour can be revived using vinyl cleaner or similar

Family

LOOP Arc, LOOP Line, LOOP Light, LOOP Cone, LOOP Corner
