Paxa Bench

BLENDA DESIGN

This low, lateral bench is understated in style, but strong in appeal. Like the other designs in the Paxa furniture suite, the bench's simple design reveals the beauty of the materials used to construct it. Streamlined lengths of pine form the seat and backrest, resting in the smooth concrete panels supporting the bench on either side. The bench is perfectly suited to contemporary settings, both indoor and outside.

Certifieringar

Dimensions and weight

Length: Paxa 1: 180 cm Paxa 2: 180 cm
Paxa 3: 300 cm
Width: Paxa 1: 50 cm Paxa 2&3: 90 cm
Sitting height: 45 cm

Overall length: 180 cm

Overall height: 45 cm

Overall width: 50 cm

Weight: 150 kg

END FRAME

Length: 16 cm

Width: 50 cm

Height: 45 cm

Weight: 58 kg

T-FRAME

Length: 24 cm

Width: 50 cm

Height: 45 cm

Weight: 72 kg

SEAT

Length: 148 cm

Height: 11.5 cm

Additional description number

A = Concrete supports in anthracite grey

E = Oak

T = Teak

MH = Mahogany

G = Pine painted in standard colour grey

Assembly and placement

Delivered in parts for assembly on site.
The seat attaches to the frame by the bolts included.

The concrete side panels are equipped with downward-facing casings for ground-mounting. They enable the bench to stand evenly.

Maintenance

Oiled wood should be maintained regularly, at least twice a year. Both oak and mahogany will turn grey over time. Painted pine can be repainted with alkyd oil enamel as needed.

Download our general maintenance advice

Variants

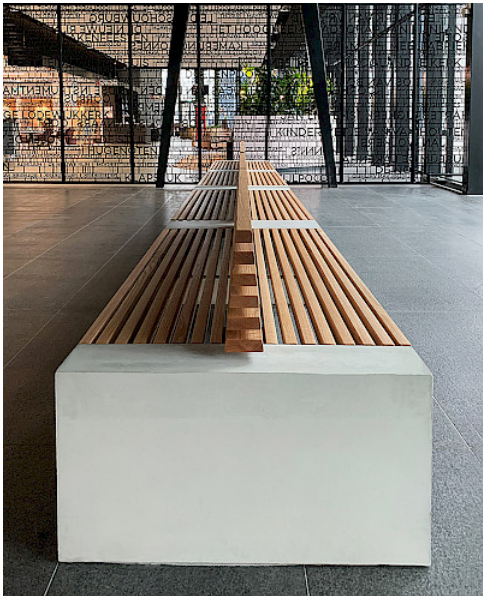

Available in oiled oak, oiled mahogany or alkyd enamel oil on pine, in standard colours.

The bench can be matched with other pieces in the Paxa furniture suite. Steel-frame versions can be ordered, the product names are 'Paxa Steel 1' and 'Paxa Steel 2'.

Character

Streamlined lengths of pine and smooth concrete form this bench, which reveals the beauty of the materials used to construct it.
