# Wembley Par Bench

THOMAS BERNSTRAND

This impressive tiered seating system creates a space-saving seating arrangement that is as striking as it is practical. Like stadium seats, Wembley combines the staircase and seating in a single expression. The bench-like seating arcs into a sleek curve that gives spectators vantage points in several directions. Whether seating spectators, shoppers, or students during a break, Wembley provides uniquely multi-level seating that can be enjoyed by people in many walks of life.

own choice of  
colour

**Additional description number**

Specify your choice of wood, ie oiled oak, teak or painted pine.

If choosing painted pine, please state colour:

NCS S 4550-Y80R reddish brown

NCS S 6010-G10Y light green

NCS S 8010-G10Y green

NCS S 5502-B light grey

Other colours are available upon request.

---

**Assembly and placement**

Assembled.  
Freestanding.  
Attachable.

---

**Maintenance**

The oiled oak or teak should be maintained regularly, at least twice a year. With time the oak darkens and the teak turns grey. Polyester powder-coated steel can be improved when needed with alkyd oil enamel. Painted pine can be improved when needed.

**Download our general maintenance advice**

---

**Variants**

Oiled oak, oiled teak or alkyd oil enamel on pine.

---

**Character**

Wembley Park's tiered benches form a unique space-saving seating arrangement.
