

FACTS

LOOP CORNER

171

Loop Corner is a new member of the Loop family. The 90-degree module combines with Loop Line to delimit a ball court or a sandbox while also providing seating. Loop Corner is also designed for use as a number of differently shaped benches. For example 4 modules can be combined to create a square, while 3 Loop Arc modules form a circle.

Design: AART Designers

TECHNICAL DATA

Material

Rotation moulded polyethylene, 6mm thick, dyed. Moulded in one piece. UV-resistant, stands up to weather, wear and tear. The material is suitable for granulation and recycling.

Surfaces and friction

The mould is sandblasted to provide a rough surface to increase friction and minimize slippage on the surface of the final product.

Dimensions

One module: L1400xB1400mmxH400mm, width (cross section): 400mm. Volume: 250 litres. 3-4 seats inside / 4-5 seats outside.

Combinations

Form Loop Corner like an "O" (square, 4 modules), like a "C" (2 modules), or like a "S" (2 or more modules). Also combine Loop Corner with Loop Line and Loop Arc.

Assembling & fixation

The modules are joined with brackets (B4) at either end. Fill them with water (160 liter) / sand (265 kg) or fasten them to the ground. Brackets to be ordered separately.

Recycled and ecolabelled*

Recycled version is made from 100% recycled polyethylene plastic, of which 85% comes from internal waste and production surplus, while 15% comes from polyethylene bags.

Recycled version is ecolabelled, promoting circular economy and fulfils UN's sustainable development goal no.12 – Responsible consumption and production.

Recycled version is available in anthracite variant, yet colour can vary from order to order.

Maintenance

This product withstands most cleaning agents and chemicals and can be cleaned using a high-pressure cleaner. The colour can be revived using vinyl cleaner or similar.

Family

Loop, Loop Light, Loop Arc, Loop Line, Loop Cone
