

# LANCER BOLLARD

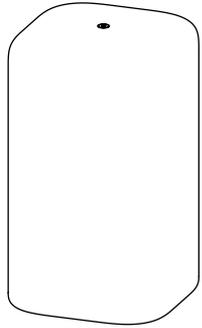

Durbanis  
2026

durbanis

Sizes in cm

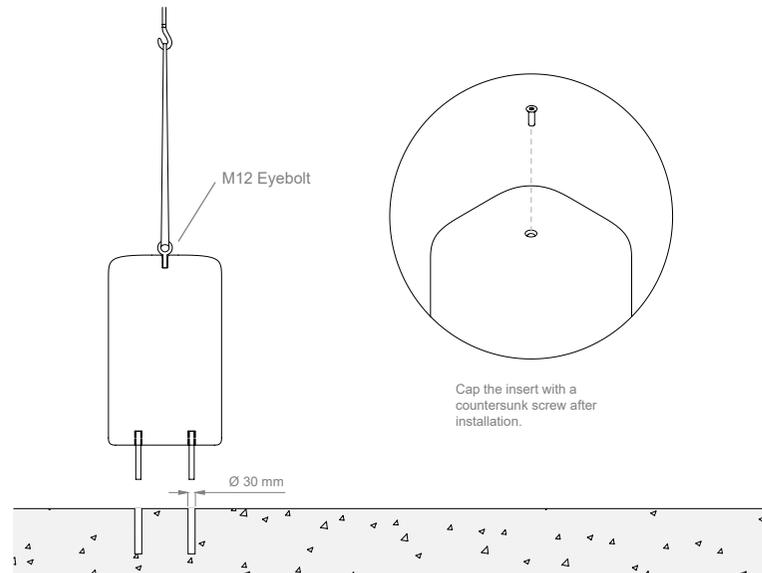

Material: Concrete bollard colored in mass, acid etched and waterproofed.

Weight: 335kg.

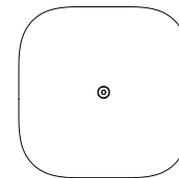

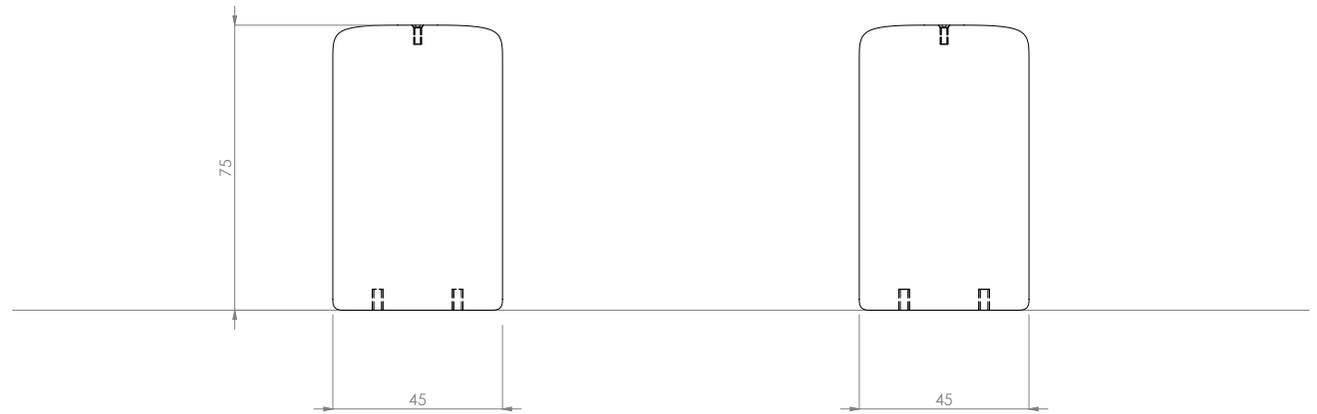

## Placement system

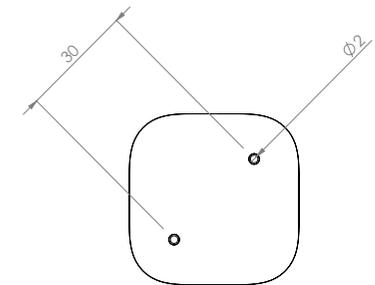

Handling by means of polyester slings fixed to an M12 eyebolt threaded into the upper insert. After installation, the insert is capped with a countersunk M12 screw. Install by inserting two M20 stud bolts into the underside threaded inserts.
